PARTHASARATHY G

Artificial Intelligence & Data Science | Entry-Level Software Developer
+91 9025718562 | parthasarathy.g2006@gmail.com | Chennai, Tamil Nadu – 600054

PROFESSIONAL SUMMARY

Detail-oriented B.Tech student specializing in Artificial Intelligence and Data Science, with hands-on experience in Python, Java, SQL, Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), machine learning, and data visualization. Completed two internships and multiple certifications in data analytics, full-stack development, Power BI, and UI/UX design. Built an automated Python code review tool covering static analysis, algorithmic complexity, and security vulnerability detection, and analytical dashboards that support data-driven decision-making.

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence and Data Science

Vel Tech Multi Tech Dr. Rangarajan Dr. Sakunthala Engineering College (Autonomous), Chennai

Enrolled: 2023 | Expected Graduation: 2027

TECHNICAL SKILLS

Languages & Core CS: Python, Java, Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Algorithm Optimization, Time & Space Complexity (Big-O) Analysis

Data & Backend: SQL, DBMS, REST API, FastAPI, HTML

AI/ML & Code Quality: AI/ML, Natural Language Processing (NLP), Static Code Analysis, Vulnerability Detection, Code Review, Debugging, Unit Testing

Design & Architecture: Low-Level Design (LLD), High-Level Design (HLD), Software Development Life Cycle (SDLC)

Tools & Platforms: Git, GitHub, CI/CD, AWS, Agile Methodology, Postman, JSON, Linux/Bash Shell, Regex, Markdown

INTERNSHIP EXPERIENCE

Data Analytics Intern | Engineering Monk

- Performed end-to-end data collection, cleaning, and transformation to prepare datasets for analysis.
- Built trend analysis dashboards and performance reports using Microsoft Excel and Power BI to support business decision-making.
- Interpreted large datasets to generate actionable insights and presented analytical summaries to cross-functional teams.

Full Stack Development Intern | Kashive Info Tech

- Designed and developed responsive web application interfaces using HTML, CSS, JavaScript, and Java frameworks.
- Implemented and maintained backend database connectivity, ensuring data integrity and consistent application performance.
- Debugged application features and optimized code to improve user experience and reduce runtime errors.

PROJECTS

Basic Transportation Booking App | Java, OOP, UI Design

- Engineered a Java-based application enabling users to book and manage transportation services end-to-end.
- Implemented core modules: user registration, vehicle selection, fare calculation, and booking confirmation.
- Applied OOP principles to ensure modular, maintainable, and scalable code architecture.

AI-Assisted Code Reviewer | Python, Static Code Analysis, Algorithm Optimization

- Developed a Python-based automated code review tool that analyzes source code to detect inefficiencies, insecure patterns, and suboptimal algorithm choices.
- Implemented time and space complexity (Big-O) analysis to flag implementations exceeding the optimal complexity for a given problem, benchmarking submitted code against the minimum achievable complexity.
- Built a security scanning module to identify common vulnerabilities (e.g., SQL injection risk, hardcoded credentials, unsafe input handling) and generate targeted mitigation suggestions.

CERTIFICATIONS & KEY STRENGTHS

Certifications: C, Python & Java Programming – Cybernaut | Data Analytics – Engineering Monk | Full Stack Development – Kashive Info Tech | Power BI – AVNL | UI/UX Design – i3CAD

Key Strengths: Problem Solving | Analytical Thinking | Teamwork & Collaboration | Logical Reasoning | Continuous Learning | Attention to Detail
